SORT WASTE SMARTLY

USEFUL INFORMATION FOR COLLECTION:

For proper display:

Bags must be securely closed and always placed inside the bin where provided. It is recommended to compact waste well to reduce bulk and avoid filling the bag to the brim.

Problems displaying waste on the scheduled day:

The bin/bag must be displayed on the next available collection day according to the calendar.

Non-compliance of waste:

- The operator has the right **not to collect the material** and to place a specific sticker on the bag/container indicating the reason for the missed collection.
- Black bags are not allowed and will not be collected.

Possible examples of errors:

- **Display on the wrong day and time:** Waste will not be collected and must be displayed on the next available day in the calendar.
- **Inappropriate bag (not Rea):** Transfer waste into the correct bag provided by Rea and display it on the next available day in the calendar.
- **Presence of non-compliant materials in the bag:** Remove the incorrect waste from the bag, place it in the correct bag, and display it on the next available day in the calendar.
