

## IN THE MUNICIPALITY OF MONTECATINI VAL DI CECINA

**the DOOR-TO-DOOR waste collection service is active**

[www.reaspa.it](http://www.reaspa.it)

---

### USEFUL INFORMATION FOR WASTE COLLECTION – HOUSEHOLD USERS

**Problems displaying on the scheduled day?**

**Non-conforming waste:**

The operator may choose not to collect the waste and will place a sticker on the bag/container indicating the reason.

**Examples of common errors:**

- Displaying on the wrong day or time: the waste will not be collected and should be put out on the next available scheduled day.
- Inappropriate bag (not from REA): move waste into the correct REA-provided bag and display on the correct day.
- Presence of non-compliant materials in the bag: remove the foreign item, place it in the correct bag, and put it out on the correct day.

---

### FOR RURAL USERS AND NON-HOUSEHOLD USERS

**To display correctly:**

- Bags must be tightly closed and always placed inside the bin (where provided).
- Compress waste to save space; do not overfill bags.
- Only use authorized bags. Black bags will not be collected.

---

### RESIDENTS IN URBAN AREAS

- RUR (Residual Urban Waste): semi-transparent grey bags
- Paper and Cardboard: paper bags
- Multimaterial Packaging: semi-transparent yellow bags
- Organic: compostable bags + 10L under-sink bin + 25L display container
- Glass Packaging: 25L green bin

---

### COMMERCIAL ACTIVITIES

- Containers with keys (120/240L) provided for each waste type to be placed on the property.
- A kit with bags for RUR, multimaterial, paper/cardboard, and organic waste will be delivered.

---
